

LISTADO PÓSTERES

1. Histología

P1. Melatonin Potentiates Exercise-Induced Improvements in Muscle Function and Redox Biomarkers in Older Breast Cancer Survivors

D. Fernández-Lázaro, A. Celorrio San Miguel, E. Garrosa, H. Castro-Abril, R. Pascual Aragonese, E. Roche, M. Garrosa

P2. Microglial Reactivity and Amyloid Pathology in the APP/PS1 Mice Under Zinc Supplementation: Brain and Retinal Analysis

A. Navarro Incio, L. Álvarez-Fernández, E. Artime, A. Arnau Sancho, P. Sáenz de Santamaría, H. González-Iglesias

P3. Histological Evidence of Lung Damage Following Gastric Ischemia-Reperfusion

R. Ruiz Villarreal, N. Beltrán, B. Gómez González, M. García Lorenzana

P4. Polycystin-1 Localization at the Primary Cilium Basal Body in Polarized Human Thyrocytes: An In Vitro Model for the Study of Thyroid Mechanotransduction

B. Pérez Fernández, V. Vázquez Román, M. Gavilán Dorronzoro, I. Martín Lacave, J. Fernández Santos

P5. Biomimetic 3D Hydrogels as a Functional Phenotyping Platform Reveal Spatial States and Therapeutic Vulnerabilities in Patient-Derived Ewing Sarcoma

M. Arroyo, K. Parra-Haro, I. Vieco-Martí, A. Berenguer-Rubio, C. Salguero-Aranda, E. Such-Taboada, A. Armiñan, M. Vicent, A. López-Carrasco, J. Díaz-Martín, E. de Álava, R. Noguera

P6. Characterization of Palmar Fascia in Patients with Dupuytren's Disease Through Immunohistochemical Analyses

O. Ortiz-Arrabal, N. Pérez-Barraza, H. Kristin, M. Etayo-Escanilla, D. Sánchez-Porras, F. Bermejo-Casares, P. Crespo, E. Guerado, M. Alaminos

P7. Histological and Structural Alterations in the Iris of Patients with Chronic Glaucoma

O. Ortiz-Arrabal, J. Ramos-López, C. González-Gallardo, S. Ortiz-Pérez, F. Bermejo-Casares, N. Pérez-Barraza, D. Sánchez-Porras, M. Alaminos

P8. Cryopreservation of Human Bioengineered Tissues for Delayed Clinical Use. A Histological and Cell Viability Analysis

S. Aguilar-Pérez, H. Kristin, C. González-Gallardo, F. Campos, M. Alaminos, R. Fernández-Valadés, J. España-Guerrero, J. Chato-Astrain, I. Garzón, M.A. Martín-Piedra

P9. Functionalization of Artificial Oral Mucosa with Human Bone Particles for Tissue Engineering of Oral and Maxillofacial Structures

M.A. Martín-Piedra, P. Ávila-Fernández, H. Kristin, A. España-López, F. Campos, J. Chato-Astrain, D. Durand-Herrera, E. España-Guerrero, R. Fernández-Valadés, I. Garzón

P10. Functionalization of Human Bioengineered Skin and Cornea Tissues using Liposome-Based Delivery Systems

H. Kristin, M. Etayo-Escanilla, O. Ortiz-Arrabal, M.A. Martín-Piedra, I. Semmler-Aránguiz, S. Aguilar-Pérez, J. García, J. Chato-Astrain

P11. Histological evaluation of the response of skeletal muscle fibers to myotendinous injury

I. Jimena Medina, M. Galiano Caballero, M. Peña Toledo, I. Cantarero Carmona, A. Agüera Vega, J. Peña Amaro

P12. Histological characterization of target muscle fibers in an animal model of multiple sclerosis

M. Peña Toledo, R. Tienda Alba, I. Jimena Medina, E. Luque Carabot, A. Agüera Vega, E. Agüera Morales, J. Peña Amaro

P13. Telocytes in soleus and extensor digitorum longus muscles of normal Wistar rats

M. Gil Belmonte, I. Jimena Medina, C. Moreno Llorente, I. Cantarero Carmona, M. Peña Toledo, A. Agüera Vega, J. Peña Amaro

P14. Immune Checkpoint and Inflammasome Profiles Are Associated With Histopathological Aggressiveness in Oral Squamous Cell Carcinoma

M.A. Ortega Núñez

P15. Biological response of corals of the genus *Acropora* associated with bleaching

B. Mendoza-Cruz, M. Becerra Amezcua, S. López Vite, G. Nava-Martínez, M. García-Salgado, X. Guzmán-García, F. Matadamas-Guzmán

P16. Determination of proteins and effect of toxins present in the posterior salivary gland of the Gould's octopus (*Octopus mimus*)

V. López-Felipe, M. Becerra Amezcua, X. Guzmán-García, R. Pliego Cárdenas, M. Hernández Díaz, F. Matadamas-Guzmán

2. Histopatología

P17. Adrenomedullin and zonulin expression in pre- and post-treatment biopsies of ulcerative colitis patients

J. García Sanmartín, M. Calvo Íñiguez, J. Narro Íñiguez, A. Martínez Ramírez

P18. Preliminary Topographical Description of Neuroinflammation and Synaptic Integrity: Assessing iNOS and VGLUT2 Distribution in the Human Hippocampus in Alzheimer's Disease

H. Castro-Abril, B. Cea-Cañas, E. Garrosa, D. Fernández-Lázaro, M. Garrosa

P19. Subtype-Dependent PCSK6 Expression, Localization and Secretion in Testicular Germ Cell Tumours

N. Lartitegui Meneses, A. Arranz Sobrado, J. Luzuriaga González, U. Carrillo-Aldama, F. Benito Lopez, L. Basabe Desmonts, E. Alonso Arana

P20. Mapping Neuron Loss in Alzheimer's Disease: Subregional Distribution and Vulnerability in the Human Hippocampus

H. Castro-Abril, B. Cea-Cañas, E. Garrosa, D. Fernández-Lázaro, M. Garrosa

P21. Multidisciplinary study of the effect of coronary reperfusion on ventricular remodeling and fibrotic scar formation in murine models of myocardial infarction

T. Molina García, C. Ríos-Navarro, A. Díaz, M. Ezzeddin, J. Gavara, E. de Dios, N. Pérez Solé, M. Ortega, V. Bodí, A. Ruiz Saurí

P22. Effects of Low-Intensity Continuous Ultrasound on Pancreatic Ductal Adenocarcinoma Progression and Tumor Immunity

U. Carrillo-Aldama, J. Aguirre, L. Ruiz-Cañas, N. Salehi, M. Ozalla-Castro, G. Ibarretxe Bilbao, J. Pineda Martí, I. González, E. Alonso, J. Luzuriaga González

P23. Immunohistochemical expression of CCR9 in pancreatic adenocarcinomas

A. Ferreirós López, L. García-Caballero, M. Gándara, A. Cepeda-Emiliani, S. Leal López, E. Álvarez Coiradas, D. Roca Lema, P. Garrido Cuesta, L. Simón, J. Domínguez Muñoz, Y. Pazos Randulfe, J. Antúnez López, T. García-Caballero, R. Gallego

P24. VIP as a modulator of osteoarthritis: a study in Osteochondral Tissue-on-a-Chip model

C. Rodríguez Hernández, R. Villanueva Romero, K. Tecza, D. Castro Vázquez, A. Cabrera Martín, P. Arribas Castaño, I. Gutiérrez Caña, Y. Juarranz, C. Martínez, S. Pérez-García, I. González Guede

P25. Decoding ferroptosis-driven senescence in aged microglia of Alzheimer's disease hippocampus

E. Sánchez-Mejías, M. Mejías-Ortega, V. Roca-Agujetas, C. Núñez-Díaz, M. Arredondo-Alcalá, L. Trujillo-Estrada, C. García-Mayor, C. Muñoz-Castro, M. Vizuete, J. Vitorica, A. Gutiérrez

P26. Optimization and Histopathological Validation of a Mannan-Induced Murine Model of Psoriatic Arthritis

B. Pérez Fernández, S. Muñoz Castro, R. Muñoz García, M. Sánchez Hidalgo, V. Vázquez Román

P27. Antibacterial Activity and Biocompatibility Assessment of a Novel Carbosilane Dendrimer-Functionalized Cream for Wound Healing

B. Pérez-Köhler, R. Lozano-García, S. Benito-Martínez, C. Rivas-Santos, J. Sánchez-Nieves, F. de la Mata, G. Pascual

P28. Extracellular Matrix Remodeling and Angiogenic Response to Atraumatic Mesh Fixation Strategies in Abdominal Hernia Repair: A Comparative Preclinical Study

S. Benito-Martínez, B. Pérez-Köhler, M. Rodríguez, C. Rivas-Santos, F. García-Moreno, G. Pascual

P29. Refining Prostate Cancer Risk Stratification Using Routine Clinical Markers and Explainable Machine Learning

N. Pérez-Barraza, M. Albendín Moreno, P. Acuña Gajardo, S. San Martín, E. Madrid Aris, C. Córdova Lepe, D. Sánchez-Porras, V. Carriel

P30. Ciliogenesis in Cribriform Morular Thyroid Carcinoma

B. Pérez Fernández, J. Cameselle Teijeiro, I. Martín Lacave, V. Vázquez Román, J. Fernández Santos

P31. Characterisation of experimental lung metastases through the detection of elastic fibres using Gallego's trichrome staining

O. García Sánchez, I. Carrera Aguado, L. Marcos Zazo, P. Berlana Galán, F. Sánchez Juanes, J. Muñoz Félix, L. Benito Garzón

P32. The Autophagy-Inflammasome Axis in Late-Onset Preeclampsia (LO-PE): From Placental Cellular Stress to the Maternal-Neonatal Inflammatory Profile

M.A. Ortega Núñez

P33. Tumor Stage and Anatomical Location Shape the Histopathological Profiles of Ferroptosis and Circadian Biomarkers in Colorectal Cancer

M.A. Ortega Núñez

3. Neurohistología

P34. Downregulation of GABAB receptors and their effector ion channels in the hippocampus of 5xFAD mice

M. Martínez Poyato, C. Aguado Rubio, R. Puertas Avendaño, M. Fernández Fernández, R. Alfaro Ruiz, A. Moreno Martínez, R. Luján Miras

P35. Protective Effect of Kaempferol Against the Activation of Complement C3 Protein and the Generation of Reactive A1 Astrocytes that Mediate Rat Brain Degeneration Induced by 3-Nitropropionic Acid

V. García-Martínez, V. García-López, C. Gutiérrez-Merino, C. López-Sánchez

P36. Amyloid β Overproduction Induced by Acute 3-Nitropropionic Acid Administration in the Rat Cerebellum is Prevented by Kaempferol Administration

C. López-Sánchez, V. García-López, R. Lagoa, C. Gutiérrez-Merino, V. García-Martínez

P37. HDAC6 Inhibition preserves neuronal, neural stem-cell, and oligodendrocyte populations following severe neonatal hypoxic-ischemic brain injury and improves adult behavioral performance

J. Alart, M. Chillida, P. Cantalapiedra, B. Herrero de la Parte, J. Arango-Lasprilla, A. Abarrategi, A. Álvarez, D. Alonso-Alconada

P38. Endolysosomal Pathway Activation in nigral and enteric Dopaminergic Neurons in Parkinson's Disease

M. Cara-Esteban, P. Marín Muela, E. Martínez Alonso, Á. Vinué, S. Martínez-Bellver, V. Teruel Martí, J. Martínez-Menárguez, M. Tomás Caballero

P39. Allele-Specific Tissue Remodeling Driven by Human APOE4 and APOE3 in an Amyloidogenic Alzheimer Mouse Model

M. Arredondo-Alcalá, A. Gutiérrez Pérez, L. Trujillo-Estrada, E. Sánchez-Mejías, J. García León, F. Vitorica Ferrández

P40. The role of white visceral adipose tissue in tau pathology

C. Campos Moreno, M. Bettinetti Luque, J. Andreo López, M. Morales Cabello, I. Perea Santaella, L. Trujillo-Estrada, A. Gutiérrez Pérez, M. García Caballero, I. Durán Jiménez, R. Sánchez Varo, D. Baglietto Vargas

P41. Subcellular Profiling Reveals Mitochondrial Alterations In Reactive Astrocytes of Alzheimer's Mice Hippocampus

L. Trujillo-Estrada, E. López-Oliva, J. Fernández-Valenzuela, M. Arredondo-Alcalá, E. Sánchez-Mejías, M. Vizuite, J. Vitorica, A. Gutiérrez

P42. Mapping of Olfactory OR51E2 Receptor Expression in the Human Hippocampus and Its Regional Overlap with the Adenosine A2A Receptor

S. Villar-Conde, C. Menéndez-Pérez, A. Navarro Incio, R. Franco, E. Martínez-Pinilla

P43. Effect of Zinc on the Regional Distribution and Accumulation of β -Amyloid and Lipofuscin in the Brain of a Murine Model of Alzheimer's Disease

A. Navarro Incio, E. Artime, A. Coteló González, H. González-Iglesias, L. Álvarez-Fernández

P44. Inflammatory and Ionic Dysregulation in the Cochlea of 5xFAD Mice: Implications for Hearing Loss

V. Fuentes-Santamaría, R. Luján, M. Gabaldón, J. Cabanes, J. Alvarado

P45. From Cajal to the Present: The Evolution of Spanish Auditory Neurohistology

E. Saldaña, F. de Castro, D. López, M. Malmierca

4. Ingeniería Tisular y Terapias Avanzadas

P46. Exogenous paracrine effects of dental pulp stem cells on glia and neuronal circuits: a new therapeutic strategy for neuroprotection

I. Manero-Roig, B. Pardo-Rodríguez, J. Luzuriaga González, J. Salvador-Moya, R. Basanta-Torres, G. Ibarretxe Bilbao, Y. Polo Arroyabe, S. Martín-Colomo, A. Larrañaga Espartero, D. Martín-Aragón Villate, S. Hernández-Sánchez, A. Saint-Amaux, L. Velez, F. Lanore, Y. Humeau, J. Pineda Martí

P47. Evaluation of the Osteoconduction Capacity of a Trilayer PLA Scaffold Seeded with ADSCs in Mandibular Defects in an Osteoporotic Model

A. Salinas Martínez, L. Tobías López, M. Solórzano Cervantes, M. Pascual González, J. Gómez Clavel, A. García Muñoz, M. Álvarez Pérez, C. Trejo Iriarte

P48. Biocompatibility of a chitosan-derived polyurethane scaffold grafted with N-hydroxyethyl acrylamide [(CS-g-PHEAA)-PU] for tissue engineering

M. Solórzano Cervantes, A. Salinas Martínez, L. Tobías López, M. Pascual González, M. González Torres, G. Garrido Fariña, B. Ortiz Sánchez, C. Trejo Iriarte

P49. Setting up a gradient bioprinting approach potentially applicable for Tissue Engineering purposes

A. Moro, U. Montejo, A. Carcedo, D. Alonso-Alconada, A. Tejo-Otero, A. Abarrategi

P50. Combination of hydrogels and Tumor-derived Extracellular Matrix as Biomimetic 3D models for drug-testing purposes in Triple-negative breast cancer cells

A. Carcedo, S. Olza, A. Krotenberg-García, A. Moro, U. Montejo, D. Alonso-Alconada, A. Ruiz-Sáenz, A. Abarrategi

P51. Early Biological Evaluation of Functionalized Nanocellulose Scaffolds for Tissue Engineering Applications

K. Álvarez-González, M. Garcia-Laynez, M. Salido Peracaula, N. García Gómez, C. Segundo Iglesias, J. Larran López, J. Palo Nieto, R. Fernández Montesinos

P52. Exploring the potential of extra virgin olive oil-derived secoiridoids as osteogenic agents for bone tissue engineering

N. Viera Viruel, N. Garcia-Gómez, C. Segundo Iglesias, J. Larran López, M. Salido Peracaula, M. Sánchez Hidalgo, R. Fernández Montesinos

P53. Development and Characterization of a Three-Dimensional A549 Cell Culture Model for the Study of SARS-CoV-2-Associated Inflammatory Responses

D. Durand-Herrera, X. Gerónimo Urtiz, A. Zamora Avilés, L. Franco Correa, R. Cortés Vieyra, M. Cajero Juárez, F. Pérez Durán, A. Bravo Patiño, R. Núñez Anita

P54. Cancer stromal cells protect lung cancer cells against docetaxel. A Histological study

L. Bravo-Baranda, I. Monleón Guinot, C. Martínez Ramos, M. Sancho Tello, J. Martín de Llano, L. Milián, M. Mata

P55. Optimization of the protocol for obtaining spheroids derived from lung cancer cells

L. Mejía Caba, I. Monleón Guinot, L. Bravo-Baranda, C. Martínez Ramos, M. Sancho Tello, J. Martín de Llano, L. Milián, M. Mata

P56. Ionic functionalization of anodized titanium surfaces using sol-gel technology to enhance peri-implant soft tissue sealing

A. Baz, J. Suay, L. Abenia Artigas, C. Arias Mainer, F. Romero Gavilán, L. Bravo-Baranda, J. Martín de Llano, M. Mata, L. Milián, C. Martínez-Ramos

P57. Development and Characterization of Cell-Laden PLA/fibrin-agarose Hybrid Constructs for Bone Tissue engineering

A. López De Lamo, I. Semmler-Aránguiz, C. Sánchez Agesta, M. Chicón Mesa, Ó. García García, F. Campos, V. Carriel, D. Sánchez-Porras

P58. Design, 3D printing and biomechanical characterization of novel scaffolds for tissue engineering applications

I. Semmler-Aránguiz, M. Etayo-Escanilla, S. Román Ceballos, R. Osorio, F. Sánchez Aguilera, F. Campos Sánchez, Ó. García García, D. Sánchez-Porras, V. Carriel

P59. 3D-Printed Magnesium-Doped Scaffolds for Peripheral Nerve Regeneration: An In Vitro Evaluation of Schwann Cell Response

M. Argudo, M. Etayo-Escanilla, S. Román Ceballos, I. Semmler-Aránguiz, I. López González, V. López De Lamo, A. López De Lamo, Ó. García García, V. Carriel

P60. Generation and In Vitro Characterization of a Novel 3D Tubular Mesh scaffolds for Tissue Engineering Applications

S. Román Ceballos, M. Etayo-Escanilla, R. Carmona, I. López González, B. Ferrari, Z. González, I. Semmler-Aránguiz, F. Campos, Ó. García García, V. Carriel

P61. Integration of Schwann-endothelial cell co-cultures in fibrin hydrogels for nerve tissue engineering

M. Etayo-Escanilla, L. Ginzinger, P. Parzer, T. Weiss, Ó. García García, V. Carriel, D. Hercher

P62. Comparative Muscle Recovery Profile Following 15-mm Nerve Gap repair: Autografts versus Bioengineered Models

M. Etayo-Escanilla, N. Pérez-Barraza, I. Semmler-Aránguiz, E. Khoury Martín, S. Pacheco López, J. Losilla Martín, J. Chato-Astrain, F. Campos, Ó. García García, V. Carriel

P63. Scaling Up Nerve Tissue Engineering: Optimizing Sciatic Nerve Decellularization from Rats to Rabbits

J. Pérez Pinta, M. Etayo-Escanilla, P. Ávila-Fernández, S. Pacheco López, F. Campos, J. Chato-Astrain, V. Carriel, Ó. García García

P64. Optimization of new decellularization protocols for elastic cartilage for application in tissue engineering

J. Alcobas Lanzas, J. Losilla Martín, F. Campos, Ó. García García, F. Bermejo-Casares, V. Carriel, D. Sánchez-Porras

P65. Evaluating functional outcomes of engineered grafts for facial nerve repair

S. Pacheco López, I. Semmler-Aránguiz, N. Pérez-Barraza, E. Khoury Martín, M. Etayo-Escanilla, V. Carriel, Ó. García García

P66. Enhanced Osteogenic Maturation of hFOB 1.19 Cells in Three-Dimensional Alginate-Chitosan Scaffolds Cultured in a Perfusion Bioreactor

E. Francisco Solano, J. Bravo Olin, F. Román Carraro, M. García Lorenzana, N. Beltrán Vargas

P67. An Alginate-Chitosan Scaffold Functionalized with Gold Nanoparticles Enhances Cutaneous Wound Healing and Extracellular Matrix Remodeling

N. Viveros Moreno, F. Rodríguez Reyes, Y. Pérez García, M. García Lorenzana, R. Ruiz Villarreal, N. Beltrán Vargas

P68. Efficacy Analysis of a Nanostructured Fibrin-Agarose Bioartificial Human Cornea (NANOULCOR) in Patients with Severe Corneal Ulcers

P. Ávila-Fernández, N. Pérez-Barraza, C. González-Gallardo, J. García, M. Sánchez-Quevedo, M. Alaminos, A. Campos

P69. Biosafety of an Anterior Human Artificial Cornea Grafted in Patients with Chronic Corneal Conditions

M. Etayo-Escanilla, C. González-Gallardo, H. Kristin, O. Ortiz-Arrabal, M. Albendín Moreno, M. Hernández-Marín, I. Garzón, P. Crespo, M. Alaminos

P70. Generation of Human Artificial Corneas with Specific Surface Morphology and Dioptric Power

J. España-Guerrero, C. González-Gallardo, H. Kristin, O. Ortiz-Arrabal, P. Ávila-Fernández, M.A. Martín-Piedra, I. Semmler-Aránguiz, J. García, M. Alaminos

P71. Biosafety analysis of BIOCLEFT, the first artificial palate mucosa grafted in children with cleft palate

F. Campos, M.A. Martín-Piedra, I. Garzón, O. Ortiz-Arrabal, P. Ávila-Fernández, D. Durand-Herrera, A. Campos, R. Fernández-Valadés, A. España-López, M. Alaminos

P72. Optimization of Cryopreservation Protocols for Long-Term Storage of Bioartificial Human Oral Mucosa Substitutes Generated by Tissue-Engineering

S. Aguilar-Pérez, I. Garzón, P. Ávila-Fernández, D. Sánchez-Porras, O. Ortiz-Arrabal, E. España-Guerrero, D. Durand-Herrera, P. Crespo, A. España-López, M.A. Martín-Piedra

P73. Functionalization of Artificial Oral Mucosa with Human Bone Particles for Tissue Engineering of Oral and Maxillofacial Structures

M.A. Martín-Piedra, P. Ávila-Fernández, H. Kristin, A. España-López, F. Campos, J. Chato-Astrain, D. Durand-Herrera, E. España-Guerrero, R. Fernández-Valadés, I. Garzón

P74. Multilineage-differentiating Stress-Enduring (MUSE) Cells: a Promising Cell Source for use in Tissue Engineering Protocols

M. Pérez-Trillo, I. Garzón, H. Kristin, D. Sánchez-Porras, J. Chato-Astrain, A. España-Guerrero, M. Alaminos, M.A. Martín-Piedra

P75. Development of a Biomimetic Model of Human Bioartificial Skin Containing Cultured Melanocytes

H. Kristin, D. Sánchez-Porras, P. Ávila-Fernández, N. Pérez-Barraza, I. Garzón, M. Sánchez-Quevedo, M. Alaminos, J. García, J. Chato-Astrain

P76. Evaluation of Biofabrication Strategies for the Generation of Multicellular Spheroid-Based Organoids

H. Kristin, A. Ros-Faro, Ó. García García, M.A. Martín-Piedra, P. Crespo, M. Sánchez-Quevedo, A. Campos, J. Chato-Astrain

P77. Generation of Enhanced Models of Bioartificial Human Skin with Immune-Related Properties for use in Burnt Patients

P. Ávila-Fernández, J. Chato-Astrain, C. Molina, M. Albendín Moreno, H. Kristin, F. Bermejo-Casares, D. Sánchez-Porras, I. Garzón, M. Alaminos

P78. Characterisation of Basement Membrane Development and Extracellular Matrix Remodelling in UGRSKIN Artificial Skin Grafted in Burnt Patients

J. Chato-Astrain, O. Ortiz-Arrabal, P. Ávila-Fernández, I. Semmler-Aránguiz, M. Etayo-Escanilla, I. Garzón, M.A. Martín-Piedra, M. Alaminos, A. Campos

P79. Screening and Antibacterial Evaluation of Cannabinoid Candidates and Cannabidiol-Loaded Nanoparticles for Radiation-Induced Skin Injury Applications

S. Benito-Martínez, P. Echevarria-Torres, C. Rivas-Santos, N. Jagerovic, P. Morales, L. García-Fernández, L. Rojo, M. Aguilar, G. Pascual

P80. Growth factor-supplemented, cell-laden hydrogels for sclero-corneal limbal construct development

M. Andollo Victoriano, A. Agirrebengoa Arrieta, C. Romo Valera, M. Rodriguez Astigarraga, A. García García, L. Pérez Álvarez, M. Pérez Garrastachu

5. Innovación Docente / Inteligencia Artificial

P81. Comparison of students' perceptions of the flipped classroom methodology for teaching Cell Biology in English in the Medicine and Biomedical Engineering degree programs at the University of the Basque Country (UPV/EHU)

J. Pineda Martí, G. Ibarretxe Bilbao

P82. Etymology and Histology: a teaching tool for understanding rather than memorizing

C. Ríos-Navarro, E. Monferrer, A. Navarro, M. Cantillo, M. Movellán, R. Noguera

P83. Do students learn histological images or histological patterns?

C. Ríos-Navarro, L. Milián, J. Martín de Llano, M. Mata, R. Noguera, A. Ruiz Saurí, M. Sancho Tello

P84. An experience of a project-based learning approach for the topic "Tissue Engineering and Regenerative Medicine"

A. Abarrategi, N. Andollo

P85. Gamified Formative Assessment Using Wooclap Enhances Student Engagement and Learning in Medical Histology Education

G. Pascual, B. Pérez-Köhler, S. Benito-Martínez, M. González-Santander

P86. EDUHISTO: an interactive virtual microscope to support active learning in General Histology for medical students

R. Navarro Lucas, A. Ruiz Saurí, R. Noguera, M. Sancho Tello Valls, J. Martín de Llano, M. Mata, R. Gómez Gallego, L. Milián, C. Ríos-Navarro, P. Sepúlveda Sanchis

P87. Students Performance in Histological Identification and Diagnosis: Analysis of Epithelial versus Cartilaginous Tissues

P. Ávila-Fernández, M. Etayo-Escanilla, N. Pérez-Barraza, M.A. Martín-Piedra, A. España-López, I. Rodríguez, M. Hernández-Marín, F. Campos

P88. Quantifying Learning Gains in Histology and Skin Tissue Engineering Through Effect Size Analysis in an International Summer School

J. Chato-Astrain, H. Kristin, P. Ávila-Fernández, D. Sánchez-Porras, A. España-López, I. Garzón, I. Rodríguez, Ó. García García

P89. Assessment of Students Perceptions of Clinical Case-Based Seminars in Histology Education

O. Ortiz-Arrabal, M. Etayo-Escanilla, H. Kristin, Ó. García García, M. Hernández, A. Campos, J. García, I. Rodríguez, F. Campos

P90. Biólogo@, ¿y ahora qué? a podcast to showcase career opportunities in Biology

L. Ro, N. Ferrer-Cortés, B. Ferrández-Gómez, M. Hernández-Falcó, L. Díaz-Fuster, P. Sáez-Espinosa, M. Gómez Torres

P91. Bridging the Curricular Lag: Faculty Perspectives on Generative AI in Medical Education Using the MED-AI Survey at University of Alcala

M.A. Ortega Núñez

P92. Shifting Roles: A Three-year Longitudinal Study of collaborative Peer-Review in First-Year Medical Education

R. Sánchez Varo, B. García Díaz, M. Alba Tercedor, S. Mercado Sáenz, L. Rodríguez Pérez, E. Lara Fernández, M. Ortega Jiménez, I. Arranz Salas, A. Escamilla Sánchez, J. A. López Villodres, D. Bermúdez

6. Histología y Reproducción

P93. Ultrastructure of the blastomeres from high-quality human blastocysts obtained from assisted reproductive technology

J. Sarquella Ventura, M. Grossmann, M. Vila Lloveras, M. Yeste Oliveras, E. Pinart Nadal

P94. A comparison of the structural features of cumulus cells from human and swine

M. Vila Lloveras, J. Sarquella Ventura, A. Terricabres Cordero, A. Delgado Bermúdez, M. Yeste Oliveras, E. Pinart Nadal

P95. Estrous cycle phase influences decellularization efficiency, extracellular matrix preservation, and thermal stability of porcine uterine scaffolds

C. Martínez López, S. Heras, C. Martínez Cáceres, M. Izquierdo Rico, F. García Vázquez

P96. Ultrastructural analysis of ovarian oocytes from ZP3 Knockout rabbits

M. Avilés González, C. Moros Nicolás, M. Izquierdo Rico, M. Balastegui Alarcón, P. Sòria Monzó, M. Castells Mora, C. Tomás Almenar, P. Bermejo Álvarez, M. Avilés Sánchez

P97. SLC9C2 Expression and Localization in the Olive Baboon Testis: Insights into a Putative Fertility-Related Ion Transporter

P. Cots Rodríguez, M. Filoni, L. González Brusi, M. Simón Cabrera, M. Avilés Sánchez

P98. Identification of RIPK3 protein in human Leydig and Sertoli cells

C. Ferrer, E. Beltrán-Frutos, V. Seco-Rovira, J. Martínez-Hernández, A. Agüera, L. M. Pastor

P99. The protein HSP47 is found in Sertoli and Leydig human cells, and its intensity depends on the degree of seminiferous tubule atrophy

V. Seco-Rovira, M. Moreno Gómez, J. Martínez-Hernández, E. Beltrán-Frutos, J. Madrid, A. Agüera, D. Salmerón, L. M. Pastor

P100. RIPK3 Expression in Leydig Cells: Changes Associated with Age, Cell Type, and Testicular Region

E. Beltrán-Frutos, J. Martínez-Hernández, V. Seco-Rovira, D. Salmerón, J. Madrid, L. M. Pastor

P101. Oxytocin and Vasopressin Type 2 Receptors Are Expressed in Human Epididymal Apical Blebs

J. Martínez-Hernández, E. Beltrán-Frutos, V. Seco-Rovira, J. Madrid, L. Santamaría, M. Yeste, L. M. Pastor

7. Otros

P102. Agreement Between Lung Ultrasound and High-Resolution Computed Tomography in Patients with Persistent Dyspnea After COVID-19

D. Fernández-Lázaro, E. Jiménez Callejo, E. Garrosa, H. Castro-Abril, M. Garrosa, S. Carrión Sari, D. Jerves Donoso

P103. Affordable and high-quality brightfield and fluorescence imaging system for murine eye fundus in vivo imaging

Á. Pérez Sala, R. Peláez Cristobal, R. Ochoa Fernández, J. Martínez Goñi, M. Rey Funes, I. Larrayoz Roldán

P104. Exploring the effect of WNT pathway activation on the development of Dental Pulp Stem Cell Neurospheres

D. Martín-Aragón Villate, S. Hernández-Sánchez, R. Basanta-Torres, A. Efim, I. Manero-Roig, J. Salvador-Moya, B. Pardo-Rodríguez, G. Ibarretxe Bilbao, J. Luzuriaga González, J. Pineda Martí

P105. Human Dental Pulp Stem Cells Exhibit Phagocytic Activity Comparable to Human Microglia

S. Hernández-Sánchez, D. Martín-Aragón Villate, R. Basanta-Torres, A. Efim, I. Manero-Roig, J. Salvador-Moya, B. Pardo-Rodríguez, G. Ibarretxe Bilbao, J. Luzuriaga González, J. Pineda Martí

P106. Spatial transcriptomics for predicting distant relapse in early-stage NSCLC after surgery or stereotactic body radiotherapy (SBRT)

J. Benitez Montañez, A. Rodríguez Martínez, E. Gallego, L. Pérez, B. Martínez Gálvez, A. Mesas Ruiz, L. Figueroa-Ortiz, E. Pérez Ruiz, J. Onieva Zafra, A. Ríos, H. Jiménez Rodríguez, E. Alba, A. Rueda Domínguez, J. Zafra-Martín, I. Barragán Mallofret

P107. Cytotoxic effects of Bunodosoma sp. protein extract on human blood cells: an in vitro study

F. Hernández Mendoza, X. Guzmán-García, N. López Díaz Guerrero, F. Matadamas-Guzmán, M. Guerrero Legarreta

P108. Evaluation of the Lysophosphatidic Acid Signaling Pathway as a High Potential Target for Pelizaeus-Merzbacher Disease Treatment.

A. Martínez-Padilla, C. Banqueri, L. Sánchez-Salido, G. Estivill-Torrús, M. Bernal, J. A. García-León, J. A. López-Villodres and B. García-Díaz

P109. Gut Microbiota and Obesity

D. Zarboun-Bentatou, L. M. Rodríguez-Pérez, R. Sanchez-Varo, B. García-Díaz, M. C. Alba-Tercedor, E. Lara-Fernández, M. V. Ortega-Jiménez, I. Arranz-Salas, A. Escamilla-Sanchez, J. A. López-Villodres, S. Mercado-Sáenz and D. Bermúdez

P110. Relationship between oral microbiome and inflammatory bowel disease.

P. Madueño del Rio, J. A. López-Villodres, B. García-Díaz, L. M. Rodríguez-Pérez, A. Escamilla-Sanchez, R. Sanchez-Varo, M. C. Alba-Tercedor, E. Lara-Fernández, M. V. Ortega-Jiménez, I. Arranz-Salas, S. Mercado-Sáenz and D. Bermúdez

P111. Sequential stem cell therapy rescues periventricular edema and AQP4 expression in posthemorrhagic hydrocephalus

L. M. Rodriguez-Perez, A. Anguita-Guardia, J. Lopez-de-San-Sebastian, A. J. Jimenez, P. Paez-Gonzalez

P112. Characterization of Activated Cardiac Fibroblast States in 3D Engineered Tissues Through Spatial Comparison with Human Fibrotic Pericardium

D. Panchuelo Prieto, C. Sánchez Fernández and A. Villar Ramos

P113. Biological Characterization of Xenogeneic Biomaterials for Palatal Bone Regeneration

M. Caro-Samitier, M. A. Hernández-Marín, C. Sánchez-Agosta, M. Chicón-Mesa, M. A. Martín-Piedra, M. C. Sánchez-Quevedo, M. A. Rodríguez, I. Garzón, I. A. Rodríguez and F. Campos

P114. Evaluation of decellularized porcine skin matrices using histological analysis and cytocompatibility assays

V. López-De-Lamo, M. A. Hernández-Marín, F. Bermejo-Casares, H. Kristin, M. Alaminos, J. Chato-Astrain and F. Campos

P115. Morphometric characterization of cardiac nodes in cattle, ponies and cats

F. A. Gómez Torres, L. E. Ballesteros Acuña, A. R. Saurí

P116. Histological and morphometric changes in cardiac conduction fibers in myocardial infarction compared with normal cardiac tissues in humans and pigs

F. A. Gómez Torres, L. E. Ballesteros Acuña, C. Ríos Navarro, P. Molina Aguilar, A. Ruíz Saurí

P117. Histological characterization of testicle and ovary by optical and transmission electron microscopy in mice from a volcanic environment exposed to environmental pollutants.

N. Ferrer Corts, A. López Botella, R. Camarinho, P. Ventura Garcia, A. dos Santos Rodrigues, M. J. Gómez Torres
